# Summary

- What is PakStak and Go?
- How will your clients Benefit
- How will you benefit

- So lets pretend that I am a home seller/buyer..
- I have just gone through the stressful ordeal of getting my house
- ready to list (painting, curb appeal, decluttering etc)
- listed with a reputable real estate agent
- decided with your help on price
- dealt with the stress and inconvenience of Open houses and keeping my house ready for viewing at all times.
- Now my house is SOLD... and now the down and dirty work begins... packing, purging.
- 
- This is where Pak Stak and Go comes in.

# Cardboard Boxes???

Inconsistent sizes so not easily stackable

quite often they smell

may have bugs living in them which then gets into whatever you have packed

disposal also a problem since boxes need to be broken down to a specific size and tied in order for recycling to take them on garbage day
